

# IMPORTANT NOTICE

**Changes coming June 1 for Residential Living: Please note these new rules apply ONLY to CMRL and not other areas of Chippewa Manor Campus at this time**

We have some exciting new updates to share with you! Effective June 1, the following changes will be implemented at CMRL.

## **Visitation:**

- Visitors to CMRL will no longer be required to make an appointment to visit
- There will be a self-screening station set up just inside entry areas
- All current visitation policies and guidance remain in effect

## **Dining and Activities:**

- The dining room will open to full capacity and masks are not required while seated at your table
- Social distancing and masks are not required during “resident only” gatherings or activities

## **Elevator:**

- Elevators can now be used by more than one resident
- It is suggested that visitors continue to ride elevators alone
- Hand sanitizer dispensers have been installed in the elevators – please use during your ride

Out of an abundance of caution, we ask that you continue to wear a mask while traveling through the halls going to and from the dining room or gathering spaces. Visitors may also be using these areas and may not be fully vaccinated.

These changes to visitation, meals and gatherings apply only residents of CMRL at this time. If you have any questions regarding these changes, please let us know.

Sincerely,

Jill Gengler
