November 2, 2021

Dear Residents, Clients and Families:

On November 1st, 2021, a member of our team tested positive for COVID-19. We immediately reported the case to our local health officials and initiated safety precautions.

Our team member is recovering at home and following all isolation guidance. Because this team member had very limited exposure to residents we were able to limit visitation for those few individuals until they could be tested. All follow up tests were negative so there is no need to suspend visitation at this time.

We will continue to maintain all the safety and mitigation efforts to combat COVID-19. The safety of our clients, residents, staff and all their families remain our top priority.

Thank you for your understanding and patience during these uncertain times. We are honored by your trust and appreciate the opportunity to serve you and your loved one.

Sincerely,

Jill Gengler, NHA
Campus President
