### U.S. News & World Report Names Chippewa Manor Nursing and Rehabilitation Among Best in Wisconsin

CHIPPEWA FALLS, WI – Chippewa Manor Nursing and Rehabilitation was recently recognized by U.S. News & World Report as a Best Nursing Home for 2024 – a status earned by only 19% of skilled-nursing facilities nationwide.

Since 2009, U.S. News' annual Best Nursing Homes ratings have assisted consumers in need of either short-term rehabilitation or long-term care for themselves or a family member.

Chippewa Manor Nursing and Rehabilitation earned its U.S. News Best Nursing Home status by achieving a rating of "High Performing," the highest possible rating, for Short-Term Rehabilitation. U.S. News awards the designation of Best Nursing Home only to those that satisfy U.S. News' assessment of consistent performance in objective quality measures.

"We've always prided ourselves in doing things the right way," Chippewa Manor Campus President Jill Gengler said. "Providing safe, enriching and healing environments for our clients is at the heart of everything we do."

For the 2024 edition, U.S. News rated more than 15,000 nursing homes on residents' outcomes -- such as infection rates, staffing levels, potentially inappropriate reliance on anti-psychotic drugs, health inspection results, and other indicators of quality.

"U.S. News' Best Nursing Homes ratings give patients, senior residents, their families and caregivers an objective assessment of quality, to help them choose the facility that best fits their individual needs," said Ben Harder, chief of health analysis and managing editor at U.S. News. "Nursing homes that have earned the recognition of U.S. News have a track record of achieving better outcomes for patients and residents, and maximizing the amount of care they receive from nurses and other staff."

U.S. News has published an information page summarizing the Best Nursing Homes methodology, ratings, and awards.
